CELLTRACK HD™

Heavy duty grass and gravel paver

CellTrack HD offers all of the design and installation benefits of CellTrack but in a heavy duty panel, that is design to withstand high loading capacities.

CellTrack HD is a permanent panelled system manufactured from recycled plastics. Designed for HGV loading, it is also suitable for high intensity traffic situations, fire tender access and dust cart traffic.

CellTrack HD is available in 100mm and 120mm depths and can be used with a variety of fill materials including grass and gravel. Allowing developers to build new access areas such as coach and truck parking areas, which are both pleasing to the eye, porous and consistent with the existing environment.

Wrekin offer a full design service, including the sub-base thickness and appropriate geosynthetic reinforcement. Soil and gravel infill specifications can also be provided.

APPLICATION AREAS

- ▶ Public parks
- ▶ Coach parking
- ▶ Truck parking
- ▶ HGV verge reinforcement
- ▶ Public & private driveways
- ▶ Emergency access
- ▶ Caravan & campsites
- ▶ Sports and school fields
- ▶ Golf courses

FUNCTIONS

- ▶ Protection
- ▶ Reinforcement
- ▶ Erosion control

AVAILABLE VARIANTS

- ▶ CellTrack
- ▶ CellTrack LP (larger paver)

STOCK CODE	DESCRIPTION
GSCCELLTRACK/HD100	CellTrack HD10 600mm x 400mm x 100mm anthracite grey

TECHNICAL SPECIFICATIONS

CHARACTERISTIC	CELLTRACK HD10
Cell shape	Octagon
Dimensions	600mm x 400mm
Height	100mm
Cell diameter	120mm
Material	50% recycled PE/PP (100% recyclable) 50% sink fraction (100% recyclable)
UV	UV stabiliser
Weight per unit	+/- 3.4kg
Weight per m ²	+/- 14.18kg
Colour	Anthracite grey (speckled)
Breaking strain (unfilled)	+/- 200 t/m ²
Breaking strain (filled)	+/- 500 t/m ²
PACKAGING	
Quantity per pallet	88
m ² per pallet	21.1m ²
Quantity per fill truck load	2,816 (32 pallets)
m ² per full truck load	675.3m ²
Dimensions of pallet	120cm x 80cm x 231cm (one-way pallet)
