

## CERTIFICATE OF CONFORMANCE

### Date of issue: March 2025

Wrekin's Standard, Unite and FlexImage manhole top chequer patterns have been certified by the WRc laboratory as achieving a Skid Resistance in excess of 70+ PSRV. The tests were carried out in accordance with the procedure described in National Highways DMRB, Technical Regulation CD 534 v0.1.0, (Formerly Vol 4, Part 5, HA104/09, sub-section 3.4), using the National Highways approved WRc test method.

*Note: Due to CD 534 having Technical Regulatory status, compliance to its requirements, including skid resistance, are mandatory and, where declared, shall be evidenced by WRc test result documentation.*
