GULLY GRATE PROTECTOR SHELL RANGE

Armadillo Gully Grate Protector Shell provides temporary protection to installed TriStar gully grating assemblies which themselves protrude above the surrounding construction-phase surfacing. The Armadillo Gully Grate Protector Shell completely enshrouds a gully grate, allowing gratings to be left raised and still withstand extreme loads.

KEY FEATURES

- ✓ Manufactured from strong and highly durable iron.
- ✓ For use in a Group 3 application.
- ✓ Sacrificial shell, 100% recyclable and reusable.
- ✓ Smooth surface and markings.
- ✓ Easy one person installation/removal.
- ✓ Simple installation with no additional parts needed.
- ✓ Anti debris guard prevents coarse debris ingress.
- ✓ Ground spikes that deter lateral movement.
- ✓ Avoids unnecessary roadworks and prevents avoidable ironwork replacement.

AVAILABLE OPTIONS

- ▶ Lock and lift clamps
- ▶ Enhanced anti-slip coating
- ▶ Alternative badging
- ▶ Customised colour scheme

NOTES

- ▶ Compatible with TriStar 430x370mm & 450x450mm clear opening gully gratings, full compatibility list available online.
- ▶ Accommodates up to 50mm of frame protrusion above the surrounding road surface.
